- Backend: Node.js, MongoDB, MySQL, RESTful APIs
- Version Control: Git, GitHub
- Tools: VS Code, Netlify, Google Analytics, Mail Chimp

### Other Skills:

- GDPR Compliance.
- Works well under pressure in a quick-paced environment.
- Outgoing and positive.
- Highly responsible and reliable.
- Ability to work alone or as part of a team.
- Communicate effectively in English and Spanish.

### Technical Projects

#### Personal Portfolio Website (2025)

Links: <https://www.japvdevelopment.com/> | GitHub: [japv20/web-portfolio25](https://github.com/japv20/web-portfolio25)

*Stack: HTML, CSS, JavaScript.*

Developed a personal portfolio website to showcase my web development projects and skills, including sections for my resume, contact information, and detailed project descriptions with links to GitHub repositories and live websites.

#### Kei Reports (2023 | University Project)

Links: <https://keireports.netlify.app/> | GitHub: <https://github.com/japv20/ProjectAPI>

*Stack: HTML, CSS, JavaScript, JikanAPI*

Developed a dynamic website with a three-column layout to showcase all the anime releases scheduled for Spring and Summer 2023 using Jikan API. Integrated API calls to fetch data about upcoming anime titles, release dates, and descriptions providing users the latest information.

#### Riff Raff Studios Website (2022) | University Project

Links: <https://riff-raff-studios.netlify.app/#/> | GitHub: <https://github.com/teampayasas/Riff-Raff>

*Stack: HTML, CSS, JavaScript, Google Analytics, Mail Chimp*

Developed as part of a team of two developers, collaborating on design and functionality. This is a website to host and promote an indie game with the game's development course, designed the layout with a focus on a clean, user-friendly interface, incorporating elements of the game.
